A2P Messaging

To keep users notified with various updates we have integrated SMS gateways that send out important updates as well as OTPs for login.

PUSH NOTIFICATIONS

Leverage the robustness of push notifications to keep your users always informed about the latest offers, discounts and other important updates.

Make sure to let your users know that you are always working behind the scene to deliver them the experience they deserve - which is nothing but the best.

- ◆ Real-time data synchronization.
- ◆ Push Notifications to Rider and Driver for ride.
- ◆ Real Time map routing with suggested alternate route(s) to the destination.
- ◆ Real time location of rider and driver to facilitate sharing of the real time location and send SOS messages.
- ◆ Crash analytics
- ◆ Admin notification and messages to targeted audiences

1. RIDER

REGISTER & LOGIN

Reaching out to your customers and getting them on board has never been so easy. With VivoCabs, rider registration and login are quick and easy.

RIDE SAFETY

We offer advanced features like Share Ride Details and SOS so that riders feel safe.

NO MORE DRIVER

SOS

Our SOS feature allows the rider to send an SMS with a click (bearing all the ride details) to all the emergency contacts saved in the app.

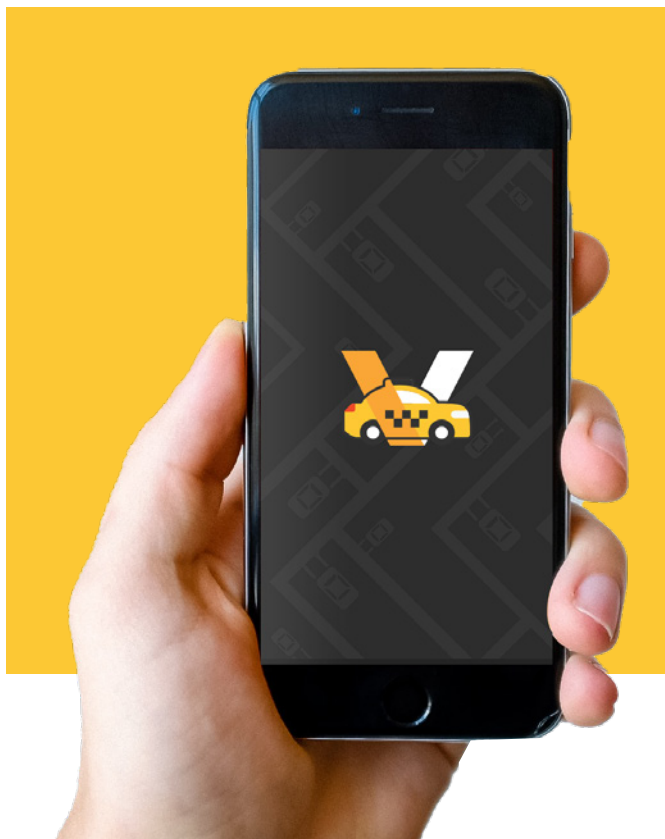

MULTIPLE PAYMENT METHODS

Rider can choose to pay from the various payment methods available.

- ◆ Cash
- ◆ Virtual wallet Payments
- ◆ Credit Cards

COUPONS

Cut the price further with coupons

NO MORE SURPRISES

Riders will get to know the estimated ride fare for different type of cabs before booking one

NO MORE “Where-have-you-reached?” CALLS

With ‘Share Ride Details’ feature, riders can easily share the ride details with anyone they want to. It includes the real time location and active status of the ride.

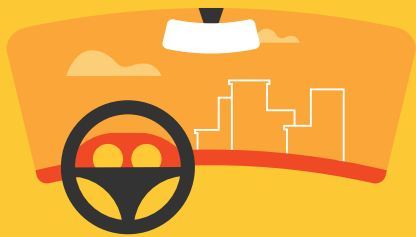

RIDER’S CONTROL

Ride starts when the rider shares the OTP with the driver to make sure that the cab they have boarded is correct and to validate the point of pickup.
